

Founded in the summer of 2004, the company Radical Instal is active in the execution, design and consultancy in the field of installations for construction. Developing its portfolio of works fast in Bucharest and the country, Radical Instal makes sanitary, HVAC, electrical installations and pneumatic domes for the smoke evacuation.

As a partner of Geberit, an important part of our contracts represents the vacuum rainwater drainage installations type Geberit Pluiva.

In addition, we also make sanitary and fire fighting installations, being accredited by the Romanian authorities for the execution, design and maintenance of fire fighting systems.

Our company installs HVAC systems and also electrical installations.
